

Solvent Degreaser

delivering solutions

GREASE, OIL AND WAX REMOVER

- ***Solvent based - high penetrating power***
- ***Dissolves grease, oil, resins and waxes***
- ***Rinses away easily with water***

A fast-acting, solvent-based degreaser that liquefies oils and grease on contact.

A blend of water-dispersable solvents, which emulsify with water for easy rinsing.

Rapidly dissolves oil, grease, diesel, tar, bitumen, rubber, wax and asphalt. Ideal to degrease engines and metal parts and to remove wax build-up from wooden floors.

Suitable for all engineering and industrial environments.

DIRECTIONS

Degreasing - spray or pour on, brush in if necessary to loosen impacted dirt and hose off with water.

Use SOLVENT DEGREASER undiluted in solvent wash and dip tanks. Keep containers covered to reduce evaporation of the product.

Floor wax removal - apply neat, allow to penetrate for 10 minutes then machine scrub, preferably adding water to form an emulsion. Mop up or suction dry. Rinse thoroughly with water and allow to dry before applying polish.
