

WAX RINSE

CONCENTRATED WAX RINSE

- *Deep, long lasting shine*
- *Leaves a streak free finish*
- *Ideal for use with blow driers*

USES

A high quality wax rinse designed to protect paintwork and leave a water repellent gloss finish.

An aqueous blend of waxes and film-forming agents, Wax Rinse leaves a protective glossy coat.

Use as a final rinse on cars, vans, lorries and commercial vehicles.

Wax Rinse is suitable for use in both hot and cold car washes and roll over operations.

DIRECTIONS

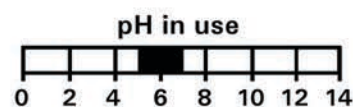

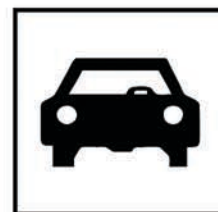

Adjust the machine setting until you achieve the optimum level of gloss required (typical dilution at the point of paintwork contact is 1:2000). Do not mix with other chemicals.

DILUTIONS

WAX RINSE : WATER

1:2000
